We Are the Church... Let's Act Like it!

Many people think the church has become a social club with little impact on the world, but that is not God's plan for the church. This study is 7-weeks through the Book of Acts, you will see the biblical vision for the church and a vision for what the church can be today. This study encourages congregations that the church can truly be a transformative presence in the world, just as the early church was in the book of Acts.

Leader: Art Hupka
